BRACES AND SUPPORTS FOR ATHLETES

The growth and extension of brand Dr.Frei continues. Now Dr.Frei represents its own new professional product line of Braces & Supports for athletes and active people. All supports and braces are made of innovative materials, which have unique properties:

- keep body warmth non-blocking skin respiration
- provide shock absorption, dynamic compression and better breathability during prolonged use
- give athletes maximum support and stability as well as comfort while using

You keep an eye on the game, we keep an eye on the details to support you. A winning combination that has proved successful over and over again since we first entered the medical production 12 years ago. New product line was developed by sports physicians in order to support athletes' joints and muscles during intensive training with high stress and overloads as well as to prevent stretching and injuries during sports activities. Real athletes are constantly looking for new ways to exercise. Some old truths often need to be reconsidered. Good can always be a little bit better. You can always train a little bit harder. But sometimes it is up to the special means which have to support you and that are the occasions we aim when develop our products. Do not stop - move to victory! Focus on results!

WRIST BAND ADJUSTABLE

Art. S8514

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Left or Right FITS FOR BOTH HANDS
- Natural Cotton INNER LAYER

- Wrist band relieves pain due to compression and fixation of the injured joint.
- Breathable elastic material provides moderate fixation and stabilization of the wrist joint.
- Provides therapeutic heat and compressive support to wrist joint.
- Adjustable velcro strap customizes compression around wrist and ensures comfortable fit and stabilization during activities.
- The inner layer made of soft cotton fabric for comfort.
- Universal size (one size fits most).
- Fits both left and right hands.

STABILIZING WRIST BRACE ADJUSTABLE

Art. S8551

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Extra COMPRESSION
- Natural Cotton INNER LAYER

- Stabilizing wrist brace features a removable metal splint for variable stabilization of the weak or stiff wrist in a neutral position.
- Support and protection for athletic and work activities.
- Provides reliable fixation and compression of the radiocarpal joint.
- Anatomically contoured metal stiffening plate and additional straps provide reliable stabilization of the joints and greater wrist stability.
- The inner layer made of soft cotton fabric for comfort.
- Universal size (one size fits most).
- Designed separately for left and right hands.

WRIST BRACE WITH THUMB FIXATION

Art. S8555

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Extra COMPRESSION
- Natural Cotton INNER LAYER

- Brace features the removable metal splints for fixation and stabilization of the wrist and thumb in abduction position.
- Support and protection for athletic and work activities.
- Provides firm fixation and compression of the radiocarpal joint and thumb.
- Anatomically contoured metallic stiffening plates and additional straps provide reliable stabilization of the joint and thumb and give greater stability.
- The inner layer made of soft cotton fabric for comfort.
- Universal size (one size fits most).
- Designed separately for left and right hands.

ELBOW BRACE WITH ADDITIONAL FIXATION

Art. S8321

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Left or Right FITS FOR BOTH ARMS
- Natural Cotton INNER LAYER

- Provides support and relieves pain of stiff, swollen or injured elbows and strained muscles in forearm during activities.
- Minimizes risk of future injuries and instability. Provides compression on weak or overstressed elbow.
- Separable design and adjustable velcro fasteners ensure comfortable fit and stabilization during activities. Provides easy application and maximum support.
- Additional round pressure point offers extra pressure on muscle in elbow.
- Aeroprene material provides shock absorption, dynamic compression and better breathability during prolonged use.
- Universal size (one size fits most).
- Fits both left and right arms.

TENNIS / GOLF ELBOW BRACE FIXATIVE

Art. S8322

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Left or Right FITS FOR BOTH ARMS
- Extra COMPRESSION

- Treatment and prevention of lateral (tennis elbow) and medial (golf elbow) epicondylitis.
- The pad redistributes bandage compression from the prominent epicondyles to the surrounding soft tissues and provides massaging effect.
- The inner layer made of soft cotton fabric for comfort.
- Relieves pain of strained muscles in forearm during activities.
- Excellent fixation and compression due to additional non-stretching strap with velcro fastener.
- Simple design, comfortable for wearing without assistance.
- Universal size (one size fits most).
- Fits both left and right arms.

BACK BRACE WITH POWER STRAPS

Art. S3041

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Adjustable LEVEL OF FIXATION
- Extra COMPRESSION

- Brace provides support of the back muscles and stabilizes abdominal pressure for safer activity.
- Reduces loads on the vertebrae and intervertebral discs.
- Aeroprene provides heating and micro massage action, non-blocking skin respiration.
- Tapered shape for a comfortable fit.
- Two plastic stays in back provide firm support to lumbar area.
- Reinforced strap design for adjustable compression.
- Removable massage pad in lower back area stimulates back muscles.
- Universal size (one size fits most).

STABILIZING KNEE SUPPORT ADJUSTABLE

Art. S6035

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Adjustable LEVEL OF FIXATION
- Natural Cotton INNER LAYER

- Knee support design ensures adjustable fit and unrestricted range of motion.
- Patellar buttress helps stabilize and protect kneecap.
- Reinforced patella stabilizer prevents displacement.
- Heat retention and compression reduce risk of strains or injuries.
- Contour design and adjustable velcro closure for custom fit. Provides easy application and maximum support.
- Breathable aeroprene material lined with cotton behind knee for optimal comfort.
- Provides warmth and equal compression to weak or overstressed knee.
- Universal size (one size fits most).
- Fits both left and right knees.

STABILIZING KNEE SUPPORT WITH 4 SPIRAL STAYS

Art. S6058

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Extra COMPRESSION
- Natural Cotton INNER LAYER

- Bandage design ensures adjustable fit and unrestricted range of motion.
- Patellar buttress helps stabilize and protect kneecap.
- Additional circle pad around patella provides protection and stabilization to prevent patella displacement.
- Two medial and lateral spiral removable stays provide additional support and stability.
- Heat retention and compression reduce the risk of strains or injuries.
- Contour design and adjustable straps ensure stability and prevent slipping. Provides easy application and maximum support.
- Breathable aeroprene material lined with cotton behind knee for optimal comfort. Provides warmth and equal compression to weak or overstressed knees.
- Universal size (one size fits most).
- Fits both left and right knees.

KNEE PATELLA STRAP BRACE FASTENING

Art. S6010

- Flexibility UNIVERSAL SIZE
- Soft Fixation AND COMPRESSION
- Left or Right FITS FOR BOTH KNEES
- Natural Cotton INNER LAYER

- Treatment and prevention of tendovaginitis, jumper's knee
- The pad redistributes bandage compression, provides massaging effect.
- The inner layer made of soft cotton fabric for comfort.
- Relieves pain of strained muscles during activities.
- Excellent fixation and compression due to additional non-stretching strap with velcro fastener.
- Simple design, comfortable for wearing without assistance.
- Universal size (one size fits most).
- Fits both left and right knees.

ANKLE SUPPORT ADJUSTABLE

Art. S7028

- Flexibility UNIVERSAL SIZE
- Breathable NEOPRENE
- Left or Right FITS FOR BOTH FEET
- Natural Cotton INNER LAYER

- Minimizes risk of future injuries as well as strains, sprains and instability. Provides compression to weak or overstressed ankle.
- Contour design and adjustable velcro fasteners ensure comfortable fit and stabilization during activities. Provides easy application and maximum support.
- Aeroprene material provides shock absorption, dynamic compression and better breathability to the injured ankle during prolonged use.
- Open toe and heel design ensure full range of movement.
- Universal size (one size fits most).
- Fits both left and right feet.

KNEE JOINT SUPPORT ELASTIC

Art. S6040

- For Everyday USAGE
- Soft Fixation AND COMPRESSION
- Left or Right FITS FOR BOTH KNEES
- Breathable FABRIC

- Provides reliable support and protection of knee joint during activities.
- Heat retention and compression reduce risk of strains or injuries.
- The anatomical shape is convenient for daily use.
- Breathable fabric ensures additional comfort.
- Fits both left and right knees.
- Sizes: S, M, L, XL.

ANKLE SUPPORT ELASTIC

Art. S7035

- For Everyday USAGE
- Soft Fixation AND COMPRESSION
- Left or Right FITS FOR BOTH FEET
- Breathable FABRIC

- Provides reliable support and protection of ankle joint during activities.
- Minimizes risk of future injuries as well as strains, sprains and instability.
- The anatomical shape is convenient for daily use.
- Breathable fabric ensures additional comfort.
- Fits both left and right feet.
- Sizes: S, M, L, XL.

ELBOW SUPPORT

ELASTIC

Art. S8317

- 7 days USAGE
- Soft Fixation AND COMPRESSION
- Left or Right FITS FOR BOTH ARMS
- Breathable FABRIC

- Provides reliable support and protection of elbow joint during activities.
- The anatomical shape is convenient for daily use.
- Breathable fabric ensures additional comfort.
- Fits both left and right arms.
- Sizes: S, M, L, XL.

WRIST WRAP

ELASTIC

Art. S8503

- 7 days USAGE
- Soft Fixation AND COMPRESSION
- Left or Right FITS FOR BOTH HANDS
- Breathable FABRIC

- Provides soft fixation and compression for wrist joint.
- The anatomical shape is convenient for daily use.
- Breathable fabrics stretches in four directions for more comfortable usage.
- Fits both left and right hands.
- Sizes: S, M, L, XL.

BANDAGE

MEDICAL ELASTIC WITH SPECIAL EASY FASTENING SYSTEM

Art. S02x80x1
Art. S02x80x3

- Velcro FIXATION
- Breathable FABRIC
- Medium TENSILITY
- Natural Cotton THREAD

- Firm bandage material retains essential tensility and provides excellent compression even after lingering use and frequentative washing.
- High cotton contents provides comfort during use.
- Easy fastening Velcro tape system W/O clips.
- Excellent fixation and compression due to additional non-stretching strap with velcro.
- Sizes: 1m x 8cm, 3m x 8cm.
